

d2w-Inside-Program Practice Guide

COPYRIGHT 2010 J-Trend Systems Co., Ltd.

An Innovative Brand that Operates Globally

J-Trend Systems Co., Ltd is the authorized distributor of d2w Oxo-biodegradable plastic technology (additive/raw material) in Asia (Taiwan, Great China, Vietnam, Japan, and Korea).

J-Trend Systems Co., Ltd. also supply all ranges of d2w Oxo-biodegradable finished products that are certified and fully tested.

An Innovative Brand that Operates Globally

We are currently looking for agents and distributors to represent us for wide ranges of d2w Oxo-biodegradable finished goods/retail products.

If you are looking for the best combination of quality, service, innovation and value for the biodegradable plastic in retail marketplace, you have come to the right place.

An Innovative Brand that Operates Globally

d2w-Inside-Program is a one-stop-shop sourcing venue to convert ordinary plastics to degradable and controlled-life plastics

Major users of plastic products

Retailers . Food producers . Dry cleaners
Beverage . Industry . Agricultural ...

An Innovative Brand that Operates Globally

Given today's economic climate, most of the markets tend to compete and communicate on a price platform. This strategy would be wrong as it destroys value, loses you money and blurs the message.

d2w-Inside-Program aims to provide value-added plastics that is based on the most commercial viable and cost competitive technology.

d2w-Inside-Program

Distributor Program

d2w-inside finished goods/ **retail packaging products** to be sold in retail supermarket channels

J-Trend assist for:

1. *product development,*
2. *product project support,*
3. *packaging design and mock-ups,*
4. *execute to retail compliance analysis,*
